Global Internet Policy Observatory

GIPO Observatory Tool flash session for NRIs

Katarzyna Jakimowicz

April 2017

The Global Internet Policy Observatory (GIPO) project is supported by the European Commission

GIPO Global Internet Policy Observatory

What is GIPO Observatory Tool & what does it do?

The GIPO Observatory Tool:

- helps you monitor Internet-related policy developments
- allows you to filter all information according to different criteria (areas, tags, world regions etc.)
- uses advanced IT technologies you can take advantage of to present information on many different media (your website, apps or other)

Initiated by the European Commission

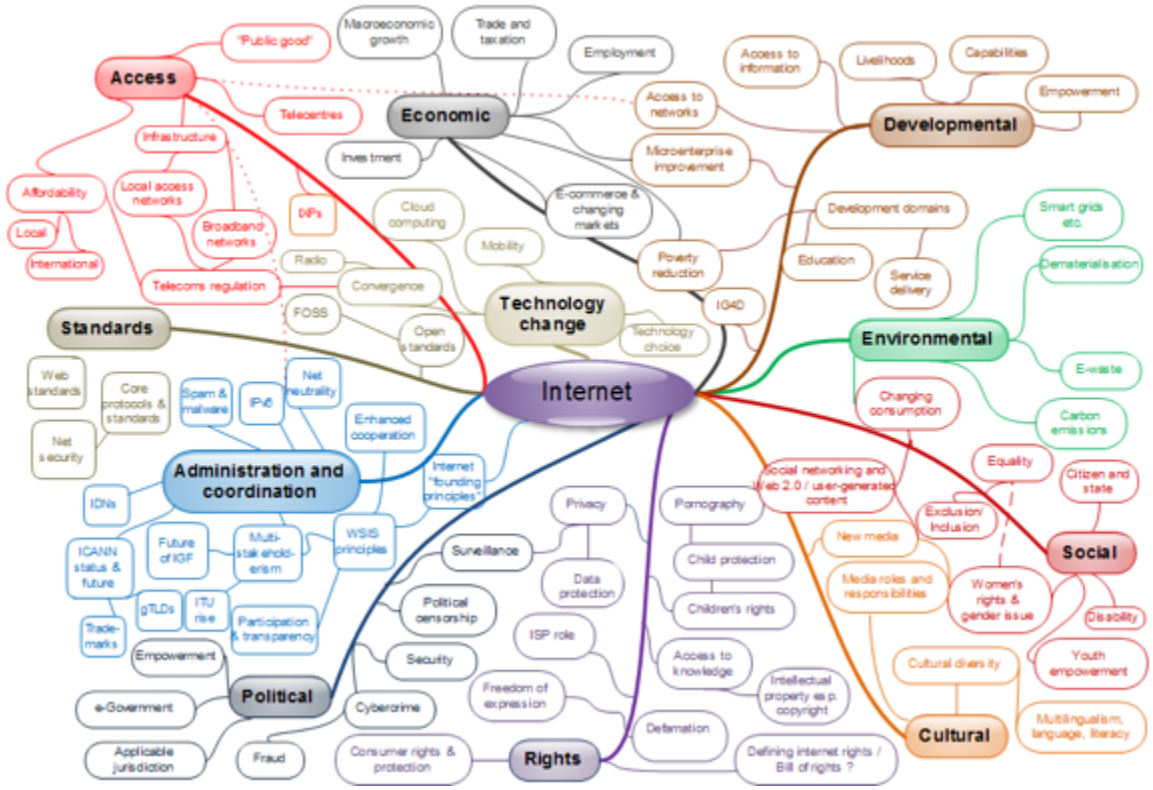
http://observatory.giponet.org/

p.a.u. education · CTIC Centro Tecnológico · OPEN EVIDENCE

The Global Internet Policy Observatory (GIPO) project is supported by the European Commission

GIPO Global Internet Policy Observatory

Why do we need it?



Information can be too complex…

… and overwhelming…

GIPO makes it easy for larger and smaller players

The Global Internet Policy Observatory (GIPO) project is supported by the European Commission

Global Internet Policy Observatory

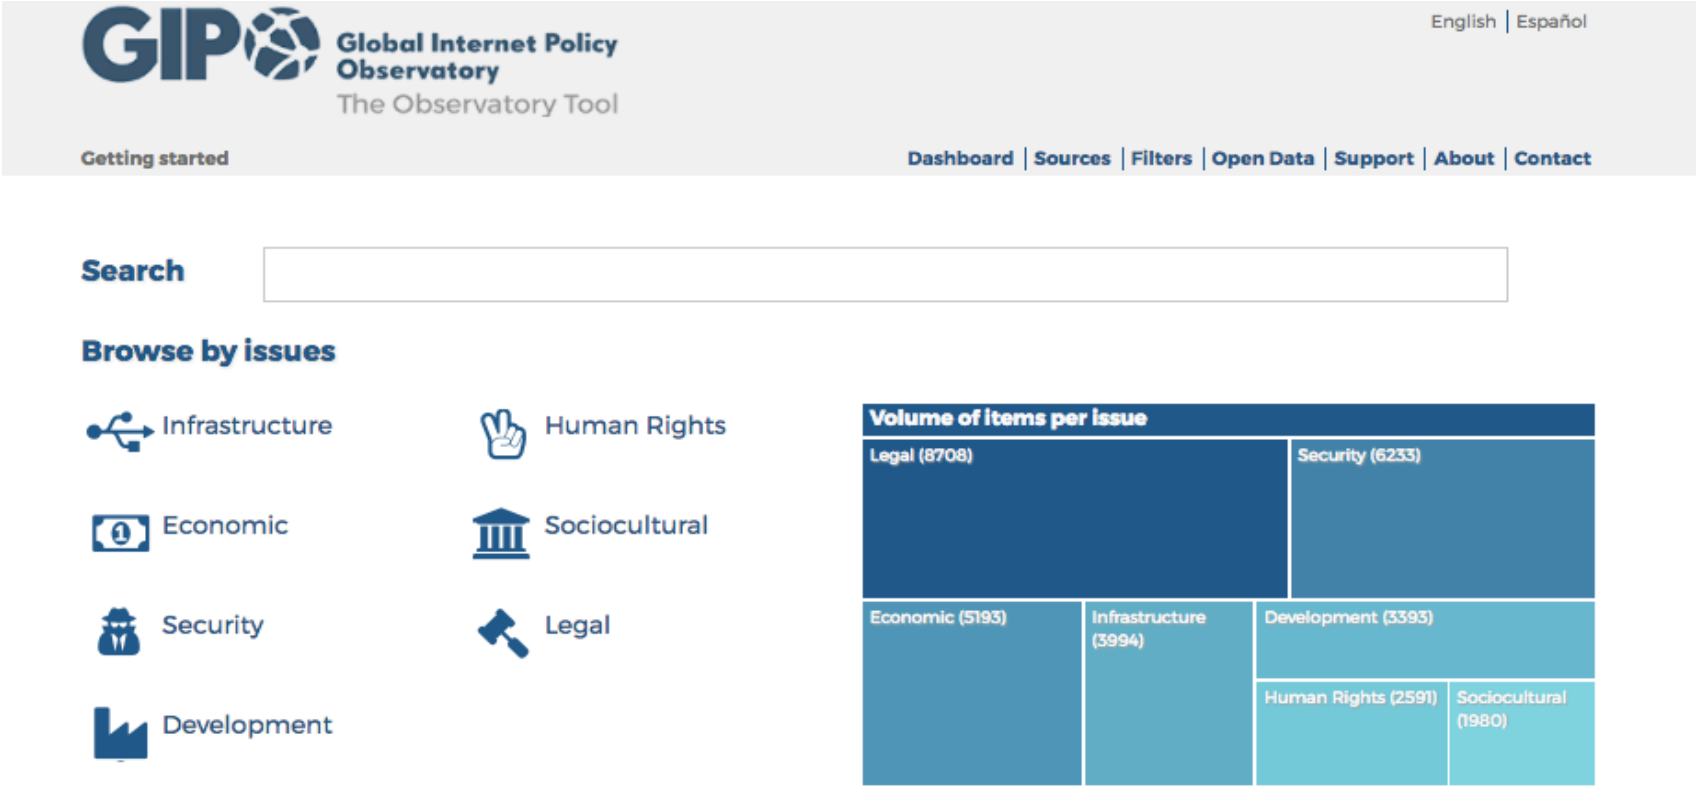
Explore: http://observatory.giponet.org/



Global Internet Policy Observatory

Visualise and customise through dashboard

http://observatory.giponet.org/dashboard/

GIPO Global Internet Policy Observatory

A dashboard helps you to:

- **Spot the burning issues of the day.**
- **Search for topics of your interest.**
- **See in which countries and regions your topics are unfolding most often at the moment of your search.**

The Global Internet Policy Observatory (GIPO) project is supported by the European Commission

GIPO Global Internet Policy Observatory

You can connect the tool to your website!

• **Use RSS feeds** and the **GIPO API** to customise information selection according to your interests.

• GIPO will automatically collect, analyse and process information from web sites and social media (including documents and tweets) and deliver it to your website visitor.

• It will classify the information for maximum relevancy and return it for further reuse.

The Global Internet Policy Observatory (GIPO) project is supported by the European Commission

Every issue page has a RSS feed. Most recent entries can be embedded in any website

Trinidad and Tobago Internet Governance Forum on January 26 2017!

The first Trinidad and Tobago Internet Governance Forum (TTIGF) will be held on January 26th, 2017, from 9AM to 1 PM at the Marriott Courtyard in Port of Spain.

The Internet Governance Forum (IGF) is a forum for multistakeholder dialogue on public policy issues related to key elements of Internet governance issues, such as the Internet's sustainability, robustness, security, stability, access and development.

The first Trinidad and Tobago IGF will include a panel discussion on the theme "The Role of the Internet and the Digital Economy in the Sustainable Development of Trinidad and Tobago". The panelists are all experts in the field, and we anticipate a high quality of

IGF Spain VI Jornadas del Foro de Gobernanza

13-14 de Octubre de 2016

La última edición del Foro de la Gobernanza de Internet en España se celebró durante los días 13 y 14 de octubre en la sede de la Secretaría de Estado de Telecomunicaciones y para la Sociedad de la Información (SETSI), en Madrid.

El evento fue inaugurado por el **Secretario de Estado de Telecomunicaciones y para la Sociedad de la Información D. Víctor Calvo Sotelo y D. Jorge Pérez Martínez, Coordinador del Foro de la Gobernanza de Internet en España.**

El **Foro de Gobernanza de Internet en España** (#igfspain), realiza una función de **dinamización del debate, concienciación de la sociedad y reunión de todos los agentes involucrados** en cada uno de los temas abordados, todos ellos de plena actualidad.

En esta edición se incluyeron entre otros: *Internet de las Cosas (IoT), Internet Móvil, Fintech y Blockchain, Inteligencia artificial y Big Data, Legislaciones aplicables a Internet en un mundo global, Internet y los medios de comunicación, la Tecnología aplicada en el entorno escolar y la Ciberseguridad y encriptación: negocio, privacidad y delito,* concluyendo con un *Open Forum.*

El **objetivo** del Foro de Gobernanza de Internet en España es proporcionar un lugar abierto y descentralizado para el debate sobre políticas que favorezcan la sostenibilidad y solidez de Internet. Las mesas redondas celebradas durante las jornadas tendrán como novedad el estar moderadas por periodistas especializados en el mundo de Internet, dejando un amplio espacio a la participación de los asistentes para aportar ideas y sugerir debates.

El Foro IGFSpain 2016 contó con el habitual apoyo de la Fundación Telefónica, Fundación Vodafone España, Google, Orange y Fundetel. Además, colaboraron las principales asociaciones de usuarios, y empresariales y entidades activas en el sector de Internet en España: Asociación de Internautas, AMETIC, ANEI y Asociación de Usuarios de Internet.

Over NL IGF.
Privacy en toegankelijkheid.
Cybercrime. Privacy. Toegankelijkheid. Mensenrechten. Cloud. Internet of Things. Het internet brengt niet alleen nieuwe mogelijkheden, maar ook blijvend vraagstukken met zich mee. Hoe gaan we daarmee om? Welke regels stellen we op? Wanneer is hacken bijvoorbeeld ethisch verantwoord? En wat valt er nog binnen vrijheid van meningsuiting op het internet? Deze vragen kunnen eigenlijk het beste op internationaal niveau beantwoord worden. Internet kent immers geen grenzen. Het Internet Governance Forum (IGF) biedt sinds 2006 het wereldwijde platform voor het voeren van deze discussie.
Tegelijkertijd hebben deze vraagstukken onmiskenbaar gevolgen op nationaal niveau. Bijvoorbeeld voor onze Nederlandse wetgeving. Maar ook voor het beleid van Nederlandse organisaties en ondernemingen. En andersom zijn er specifieke internetgerelateerde aspecten die in Nederland spelen, maar die ook mondiaal relevant zijn. Om daarover in Nederland met betrokkenen van gedachten te kunnen wisselen, werd in navolging van het IGF het Nederlands Internet Governance Forum (NL IGF) opgericht.

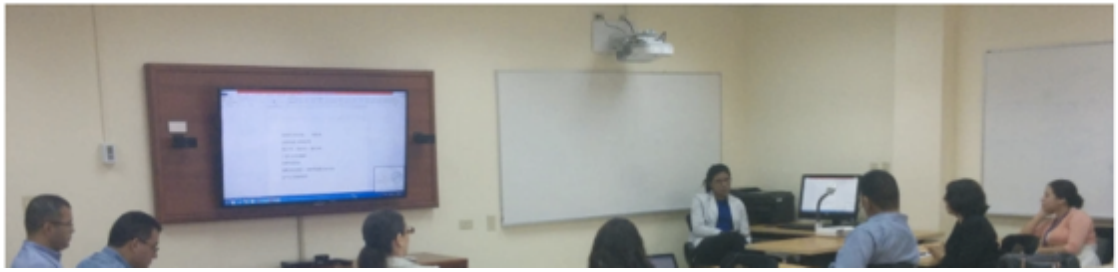
Un Internet libre y para todos

Interesados en promover un Internet libre, abierto, seguro, estable y de acceso universal, nos proponemos crear un espacio de debate entre las múltiples partes interesadas (academia, gobierno, sociedad civil, empresa privada, comunidad técnica, entre otras) para la identificación de las prioridades en torno a la Gobernanza de Internet en Panamá.



GIPO Global Internet Policy Observatory

How to navigate through the dashboard in a simple way?

Dashboard panels are interactive, so just click and experiment. First use the top input panels (search queries and time interval) to specify the scope of the information you want to play with.

Then click on the elements of the display panels and/or their options to navigate / refine / reshape your initial guess.

You will see all the rest of the panels readjusting their information accordingly.
